GOVERNOR'S VETOES

30

S.B. No. 301—Portantino et al.
An act relating to air pollution.
Vote required: 27

To the Members of the California State Senate:

I am returning Senate Bill 301 without my signature.

This bill would require the California Air Resources Board (CARB) to establish the Zero-Emission Aftermarket Conversion Project (ZACP) to provide an applicant with a financial rebate for converting a gasoline- or diesel-fueled vehicle into a zero-emission vehicle (ZEV).

California is showing the world what's possible - fostering innovation and creating space for an industry to flourish as the sale of ZEVs reach record highs, with over 1.8 million ZEVs now on California's roads. The state continues to invest billions of dollars in ZEV deployment and supporting infrastructure to achieve our ambitious climate and clean air goals.

While I share the author's desire to further accelerate the state's transition to ZEVs, this bill creates a new program at a time when the state faces a \$44.9 billion shortfall for the 2024–25 fiscal year. Additionally, there is no funding currently identified or available in the state budget to support this new program.

For these reasons, I cannot sign this bill.

Sincerely,

Gavin Newsom

2024

Jun. 14—Shall Senate Bill 301 become a law notwithstanding the objections of the Governor? (Must be considered pursuant to Joint Rule 58.5.)

S.B. No. 674—Gonzalez et al.

An act relating to air pollution.

Legislative Counsel's Digest of Assembly Amendments

SB 674, as it passed the Senate, required the installation of a refinery-related community air monitoring system and a fence-line monitoring system for each refinery, as defined, on or before January 1, 2026. SB 674 required the owner or operator of a refinery, within 24 hours of a fence-line monitoring system detecting an exceedance of a specified threshold of any measured pollutant, to initiate a root cause analysis and to report the findings of that analysis and the corrective action performed by the refinery within 5 days of the exceedance.

The Assembly amendments instead require the installation of a refinery-related community air monitoring system and a fence-line monitoring system for each covered facility, as defined, on or before January 1, 2028. The Assembly amendments require the appropriate air pollution control district or air quality management district to provide notice to the appropriate policy committees of the Legislature regarding the district's progress toward meeting that deadline. The Assembly amendments require the owner or operator of a covered facility to initiate the root cause analysis and report the findings of the analysis and the corrective action within 14 days of the exceedance of the pollutant threshold.

The Assembly amendments additionally require the committee to consult with fire ecologists with expertise in the full range of California’s vegetation communities when developing the guidance.
