68

S.B. No. 652—Umberg.

An act relating to evidence.

Legislative Counsel's Digest of Assembly Amendments

SB 652, as it passed the Senate, required that, in civil cases, when an expert witness testifies in the form of an opinion, that opinion must be based on the standard of a reasonable degree of probability in the expert witness' field of expertise. The bill also permitted an expert to testify that a matter cannot reach a reasonable degree of probability in the field and provide the basis for that opinion.

The Assembly amendments delete the above-described provisions and instead would, in a case in which an expert testifying about medical causation for the party bearing the burden of proof is required to testify that causation exists to a reasonable medical probability, allow the party not bearing the burden of proof to offer the testimony of a contrary expert only if the expert can testify that a proffered alternative cause exists to a reasonable medical probability or that a matter cannot meet a reasonable degree of probability in the applicable field.

Vote: 21. Substantial substantive change: yes.

(Final vote in the Senate: AYES—36. NOES—0.)
